

## ***BENEFITS OF***

# **PRESSURE SENSITIVE ADHESIVES**

## **AS AN ASSEMBLY ASSIST**

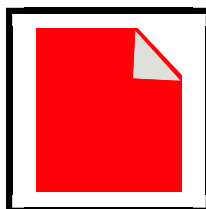

### **INSTANT BOND**

- PSAs instantly bond substrates
- No cure time speeds up assembly process
- Faster assembly increases production

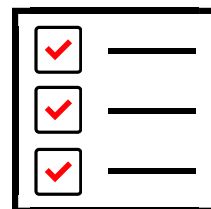

### **EXTRA SET OF HANDS**

- Provides an assist during assembly
- Used in conjunction with fasteners and final adhesive
- Holds substrates in place until final assembly

### **REPOSITIONABLE**

- Once applied, adhesive can be removed
- Removability allows for repositioning of substrates
- Offers flexibility prior to final assembly

### **BONDS VARIETY OF SUBSTRATES**

- Holds almost any substrate in place:
  - Plastic
  - Paper
  - Metal
  - Foam
  - Textiles/Wovens
